

# The Gift of Hope

## **Responsible leadership**

The Bridge cares and commits to being a leader in corporate responsibility.

For us, leadership is about more than our service; it's about making a difference. Not just in the marketplace, but also in the workplace, in the environment, and in the community. It's not just corporate social responsibility; it's doing the right thing.

Give this child the gift of Hope. In addition to our environment friendly business practices, part of our sales goes to Children's Hour.

This is the gift of hope. This is responsible leadership.
